

Taste Unit – Product Allergens

Version 18 – AUGUST 2026

The allergy data detailed in the tables below has been derived from specifications obtained from the suppliers of the products.

Our team should be informed of your allergy every time, even if you have eaten the dish before so that every precaution can be taken in our kitchen to prevent cross contamination.

Please note that due to the nature of cooking our deep-fried products cannot be guaranteed to be free from cross contamination with other allergens.

We have taken all reasonable steps to ensure that this table is accurate. However, we cannot guarantee that the product is “100% free from” that component because of the risk of unexpected cross contamination and therefore cannot accept any liability in this respect.

You should use this information to help you assess your own level of risk, based on your personal circumstances, before eating any of our products
